Spotlight On Barton Partners

"Did you catch the game, Harry?" A common question the morning after an Eagles, Phillies, Flyers, or Sixers game at Barton Partners - as it is between coworkers at most workplaces across the region. The only difference is Harry has a cognitive disability. Barton Partners is a nationally acclaimed architectural, planning and design firm based in Norristown PA. Barton Partners' social conscious is evident in their award winning design work and their hiring practices.

Seven years ago Barton Partners hired Harry through CIS to scan large and oversized documents into their computer system. With support from his CIS Job Coach, Harry quickly mastered that task, and his job duties grew to include filing, copying, mail distribution, shredding, and other special projects. As his position changed and grew over the years, Barton contacted CIS to help Harry learn new job duties, and to make sure the job is done to their expectations.

His coworkers say he does his job and does it well - but beyond that, he is a positive influence in the office. "His infectious personality and sense of humor lifts up everyone in the firm."

His parents say, "Harry is very fortunate to be working with a great group of people at Barton Partners and with CIS' coaching team. Harry loves his job and as parents, we are grateful and thank God everyday for this opportunity."

Barton Partners provides Harry the opportunity to be meaningfully employed in the community. Harry provides Barton Partners with quality work. Community Integrated Services is there to help whenever needed, to ensure this win - win relationship continues benefiting everyone.

Thank you Barton Partners for your commitment to the employment of people with disabilities!
